FEEDBACK ANALYSIS AND ACTION TAKEN REPORT

Session: 2024-2025

**By:
Internal Quality Assurance Cell**

FEEDBACK SYSTEM

For every session, IQAC has made it mandatory to use standardized feedback forms to get input from teachers, parents, alumni, and students. The Feedback Committee completes the assignment. The committee distributes, gathers, and sends the completed feedback forms to IQAC during the meeting. After analyzing and interpreting the data, IQAC works to take additional action in accordance with the feedback report.

Objective:

The objective of taking feedback is to determine the satisfaction levels of various stakeholders of the college and identifies scope for further improvement.

Methodology

- **Collection of Data:** The feedback is collected manually by circulating the feedback forms.
- **Sampling:** Efforts are being made to collect data through extensive sampling. Yet in some cases, it becomes difficult to approach to each student, alumni, and/or parents. So, a set of criteria is established for taking sample.
 - **Students:** It is being assured that at least 50% of college students fill the feedback forms. Equal representation is given to all streams and proportionate stratified sampling is used for collecting feedback from students.
 - **Alumni:** It is again assured that at least 50% of the outgoing students in each session fill the feedback forms from all streams.
 - **Parents:** Often, students are handed over the forms so that they get it filled from their parents and submit. However, accidental sampling method is also used and the parents who visit the college for fees and other purposes are requested to fill the form.
 - **Teachers:** All the teachers fill the feedback forms in each and every session.

Analysis and Interpretation:

The data is analyzed through percentages. Charts and diagrams are prepared for easy understanding by using Microsoft Excel.

Meetings and Action Taken Report:

Based on the analysis, IQAC in consultation with principal, calls for meeting with feedback committee to discuss raised issues and suggestions. Necessary actions to be taken are decided accordingly. Likewise, action taken report is prepared.

Circulation of Action Taken Report:

The action taken report is circulated among the staff members and feedback analysis is displayed on college website. Action taken report acts as a plan for the next academic year. Staff meetings and other committee meetings are then held by Principal to execute and implement the action plan.

- **From the next part, analysis of feedback forms for Students, Alumni, Parents, and Teachers respectively are presented with appropriate explanations. At the end, action taken report is shown.**

REPORT OF STUDENTS' FEEDBACK ANALYSIS**Session 2024-25**

Twenty questions were asked in the form of responses in the students' feedback form, and the response anchors were separated into three categories: disagree (1), neither agree nor disagree (2), and agree (3). There were two open-ended questions about the college's best features and recommendations. Name and sign columns were optional so that students could freely express their thoughts. An example of a completed feedback form is displayed below. The percentage approach is used to assess the second section. Table 1 displays the percentages of responses, which are displayed using bar graphs.

Most Likings about the College:

Students mention the following as their most memorable likings for the college as:

- Clean and Green Campus.
- Organisation of Cultural Events, Talent shows, Farewell/Freshers' parties, celebration of festivals.
- Pleasant behaviour of all teachers and teachers' support in case of any difficulty.

Other Suggestions:

- New books in the library as per NEP syllabus.
- To relax college gating timings.

OVERALL CONCLUSION THROUGH ANALYSIS OF STUDENTS' FEEDBACK

Questions about infrastructure and other college amenities, as well as curriculum design and delivery, were included in the student feedback form. Thus, the conclusion is divided into two groups:

- 1) **Courses and Curriculum:** Students seem to be satisfied with the college's course offerings, the manner the programs are planned and executed, and the books and resources that instructors recommend. Additionally, they are pleased with the methods used for the curriculum, tests, and assessments. They think that instructors regularly attend classes and effectively use ICT technologies in appropriate ways. The majority of students gave agreeable answers to the questions regarding the courses and curriculum, which leads to this conclusion.
- 2) **Infrastructure and other Amenities:** It is clear from the students' responses that some of them believe that certain parts of the facilities, including Sports Ground, require improvement. However, they believe that basic facilities like drinking water and restrooms are sufficient. Students give the celebration of extracurricular activities and campus festivities positive reviews. Additionally, they have expressed how much they enjoy these items. Nonetheless, they place a high priority on having a sizable collection of books and sufficient library resources. Some students also want the college's departure schedule to be relaxed.

Three basic categories comprised the Alumni Feedback Form. The first section of the form inquired about the alumni's current and personal details regarding their employment and further education. In the second section, alumni were given three alternatives (Need Improvement/Unsatisfied, Satisfied, and Very Good) to respond to questions concerning the college's courses, curriculum, and other facilities. The third section requested for various details, such as recommendations, etc. An example of a completed feedback form is displayed below. The percentage approach is used to assess the second section of the form. Table 2 displays the percentages of responses, which are displayed using bar graphs.

OVERALL CONCLUSION THROUGH ANALYSIS OF ALUMNI FEEDBACK

All in all, here the conclusion is presented in two categories:

- 1) **Courses and Curriculum:** Students seem to be adequately satisfied with the college's courses as well as the design and implementation of the program. Additionally, they are pleased with how the curriculum, tests, and assessments are administered. The majority of students gave adequate or excellent answers to the questions regarding the courses and curriculum, which leads to this conclusion.
- 2) **Infrastructure and other Amenities:** Based on the students' comments, it can be concluded that they are generally happy with the college's infrastructure, communication, and relationship with them. College festivals and extracurricular events are well-received by alumni. In their most memorable moments, they have brought up these points. There is a desire among alumni for more books and better library facilities. Additionally, a sizable portion of alumni believe that the courses have little bearing on their careers.

OVERALL CONCLUSION THROUGH ANALYSIS OF PARENTS' FEEDBACK

The feedback form incorporated questions related to curriculum design and delivery, and infrastructure and other amenities in the college. So, the conclusion is presented in two categories:

- 1) **Courses and Curriculum:** Parents appear to be satisfied with the college's course options, the curriculum's design and delivery, and the instructors' methods of instruction. Parents believe that the teachers are knowledgeable about their teaching methods, show up on time for class, and give their pupils a great learning environment. Parents think that when pupils visit the school, they are well-cared for and that teachers help them a lot. This can be deduced from the fact that most parents provide excellent and satisfying answers when asked about the curriculum and courses.

- 2) **Infrastructure and other Amenities:** Parents believe that the college's general infrastructure is good. It may be inferred from the total responses that the college provides adequate basic facilities such as bathrooms and clean drinking water. On campus, extracurricular and extracurricular events are likewise well-run, and there is a formal procedure in place for handling issues and grievances from students. Parents believe that the college's student-teacher relationship is also positive.

Other Suggestions:

- Books in the library must be purchased keeping in view NEP syllabus.
- Organization of National/International level seminars in the college.

OVERALL CONCLUSION THROUGH ANALYSIS OF TEACHERS' FEEDBACK

Like other analysis, here also, the overall conclusion is presented into two parts.

- 1) Courses and Curriculum:** An overall analysis of teachers' replies indicates that the curriculum is sufficient and needs-based, and that student-centric teaching and learning techniques are applied satisfactorily. The teachers think that the objectives of the curricula are well outlined. They both agree that exams are administered on schedule and that instructors give pupils material outside of the curriculum. Additionally, they think that the books listed as reference materials in the syllabus are adequate.
- 2) Infrastructure and other Amenities:** Most instructors believe that the college has adequate ICT resources and a decent overall infrastructure. The majority of teachers gave an Agree response, praising the overall culture of the college and the facilities provided to students. Students engage in extracurricular activities to a sufficient degree, and teachers give them the necessary guidance and knowledge to increase their employability. Additionally, the college provides teachers with a pleasant work environment that is beneficial for both teaching and research. The decentralized decision-making framework is also well-liked by the teachers. However, most educators are concerned about whether the library has adequate books, particularly in accordance with the NEP syllabus.

ACTION TAKEN REPORT

(Based on Feedback Analysis: Session 2024-25)

The key points of consideration are retrieved by incorporating the final conclusion and recommendations from the analysis of feedback from the college's four stakeholders (students, alumni, parents, and teachers). The IQAC coordinator discusses these topics with the principal for taking appropriate action. The action taken report is displayed in tabular form below.

Key Area of Consideration	Actions Taken
More books in the library with new editions as per National Education Policy and books beyond subject books.	The librarian was instructed by the principal to continue working on the issue during a short meeting. She was asked to get book titles from teachers' and create a pool of books that could be bought for the library in accordance with NEP.
Gating Timings of Students	The college gating timings for students were 2:00 PM previously. In view of past year analysis, certain students demanded relaxation in gating timings. It has already been relaxed for one and a half hour by the principal. Now, students are allowed to exit on or after 1:30 PM.
Curriculum and Relevance of courses	Although satisfactory responses were received from students, alumni, parents, and teachers regarding curriculum; yet, some responses are unsatisfactory that the courses are not much relevant for jobs. Now, in view of National Education Policy, affiliating University has already been followed by the college and skill development and multidisciplinary courses have been included in curriculum.
National/International Seminars	Teachers' are of the opinion that National/International level seminars should be organized in the campus. In session 2024-25, three national level seminars have been organized by the college. In the coming session also, principal have asked staff members to submit proposals.
Infrastructural Facilities in the College	Feedback analysis has confirmed that stakeholders of the college are satisfied with overall infrastructural facilities of the college. However, principal in consultation with management is continually involved in improving facilities in college for the convenience of students.
